ABDUL HAFEEZ USMANI

BS COMPUTER SCIENCE STUDENT | WEB DEVELOPMENT & AI

PROFESSIONAL SUMMARY

BS Computer Science student at the University of Karachi with practical experience building web projects using HTML, CSS, JavaScript and React. Familiar with the fundamentals of the MERN stack and Python programming through object-oriented programming (OOP). Interested in internship opportunities to apply my skills, learn from experienced developers and contribute to real-world software projects.

PROJECTS

Career Pilot — AI-Powered Career Assistant

In Progress | MERN Stack + Gemini AI

Developing a full-stack web application combining MERN-stack development and AI to support career management. Planned features include:

- Gemini-powered AI career assistant
- Resume analyzer
- AI-assisted resume improvement
- Job application tracker

Digital Khata — Web Application

Deployed on Vercel

Built and deployed a web project focused on digital khata and record management.

Live demo: digital-khata-one.vercel.app

Weather App

React | Weather API

Developed a React-based weather application featuring city search, current weather and forecasts using a weather API.

Live demo: ahafeezusmani79-art.github.io/weather

Personal Portfolio Website

HTML | CSS | JavaScript

Created a portfolio website to showcase web development skills and projects.

Portfolio: ahafeezusmani79-art.github.io/portfolio
